

REBRAND & REPOSITIONING • APRIL 2026

Moongate → Arc

From social wallet to
agentic wealth platform

Powered by MoonX Infrastructure

What carries over from Moongate.

The rebrand isn't starting from zero — these assets are the moat.

Wallet Infrastructure

The wallet stack, account layer, and widget surface are production-ready and carry directly into Arc. No rebuild needed.

MoonX Rails

Fiat on-ramp, cross-chain swaps, and Apple Pay checkout — already embedded. The payment layer is done.

180K Email Addresses

Out of 250K total users, 180K have verified emails — ready for a day-one re-engagement push at launch.

Brand Equity

Moongate's community, social presence, and MoonPay relationship. Arc inherits the trust; adds the vision.

THE NEW IDENTITY

Arc. Built different. From day one.

Consumer-First Access

Mass consumer access to curated investment baskets and intelligent tooling — no crypto expertise required.

Agentic-First

Agent Co-Pilot handles research, trading, and portfolio rebalancing — automatically, 24/7.

180K

Activate Idle Users

180K emails from 250K total users — ready to re-engage on day one.

Consumer-First Build

All dev shifts to MoonPay-powered consumer UX.

Day-One Cross-Chain

Multi-chain from launch. No Solana silo.

Invest in the narrative.

The agent reads the news, monitors filings, and builds baskets in real time. Tell it your thesis — it handles the rest.

I think defense spending surges for 3 years

RESHORING

Made in America

3x

Factories are coming home. Tariffs just hit their highest level since 1946.

ANNUAL RETURN

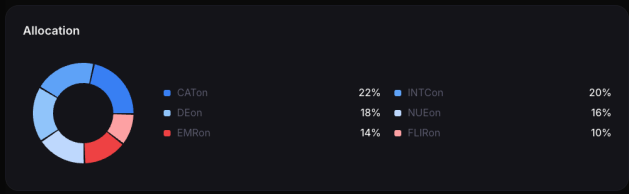

+139.93%

+141.4% on \$1K

Agent · 1d ago — New tariff announcement. CATon + INTCon weights increased.

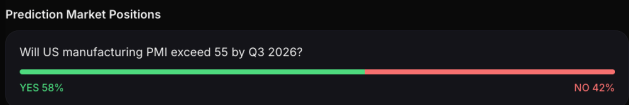

Jupiter Ondo On macro event 1 prediction market

About Positions Risk

Strategy

The reshoring megatrend in one basket. Industrial capex is surging as companies move supply chains back to the US. The agent tracks manufacturing PMI, factory construction data, CHIPS Act disbursements, and tariff announcements.

ARC • MOONX INFRASTRUCTURE

One-Tap. Any Asset.

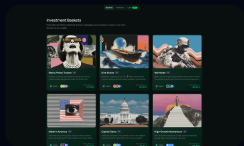

MoonPay's payment rails embedded directly into the investment flow. Fiat → on-chain basket in a single checkout.

- Apple Pay, Google Pay, card — native
- Sign in with Apple, Google, or wallet
- No crypto knowledge required

The screenshot shows a mobile application interface for MoonPay. At the top, it says 'arc powered by MoonPay'. Below that are 'Buy' and 'Monthly' buttons. The 'Balance' section shows '\$0.00' and '0.00 USDC'. The 'Amount' section shows '\$ 20' with a dropdown for currency and a range from '\$20' to '\$500'. Below that, it says 'Min \$20 - Receive USDC on Solana'. The 'Payment Method' section shows 'Apple Pay' with a right arrow. The 'PURCHASE SUMMARY' section shows 'Amount: \$20.00', 'Token: USDC → Made in America', and 'Payment: Apple Pay'. Below that, it says 'Sign in to complete purchase' and 'Create an account or sign in to receive your tokens in your Arc wallet'. There are three sign-in buttons: 'Sign in with Apple', 'Sign in with Google', and 'Sign in with Ethereum'. Below these is an 'OR' separator. At the bottom, there is a checkbox for 'Use custom receiver wallet' and a button for 'Sign in or enter wallet address'.

COMPETITIVE LANDSCAPE

Where Arc wins.

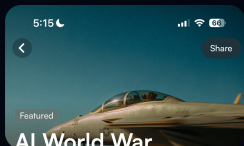

Cesto

Crypto-native

Narrative basket earn product. Static allocations, Jupiter routing. No fiat, no agent.

Agentic rebalancing, cron-jobs, alt assets (xStocks + Perps), MoonPay fiat checkout.

JoinAutoPilot

TradFi-native

Expert portfolio copying. Brokerage-dependent, no on-chain assets or perps.

Crypto-native rails, MoonPay checkout, 250K existing distribution, no brokerage friction.

● MoonPay infrastructure moat ● 250K existing user base ● Agentic intelligence layer

DISTRIBUTION STRATEGY

How users find Arc.

GPT

PPX

01

Build thesis

"I think defense spending

via Apple Pay.

EXECUTION

Feature roadmap.

PHASE 1 • REBRAND & INFRASTRUCTURE

1 Cross-Chain Integration

Low

2 Perps & Prediction Markets

Medium

3 Baskets of Investments

High

PHASE 2 • AGENTIC IDENTITY

4 Natural Language Purchasing

Low-Med

5 Agent Co-Pilot

Medium

6 Agentic Rebalancing

High

Two-Phase Gameplan.

BUCKET 1 • WEEKS 1-6

Rebrand & Immediate Wins

- Rebrand Moongate → Arc: new logo, visual identity, narrative
- Re-engagement campaign to 180K emails (of 250K total users)
- Deploy MoonPay cross-chain infra + sandbox testing (Raydium)
- Baskets MVP + Perps & Prediction Markets

BUCKET 2 • MONTH 2+

Agentic Identity

- Agent Co-Pilot MVP: NLP purchasing + research
- Agentic rebalancing on market conditions
- Refine NLP from real trading behavior

LLM Cost Hypothesis

Credit system funded by Treasury wallet — users acquire Arc Credits to pay for agent token usage. Aligned with Dawn credit model.

THE OPPORTUNITY

250,000 users.
One agent.
Infinite assets.

Arc is the consumer face of MoonPay's infrastructure —
built for the next generation of on-chain wealth management.

180K emails • 250K total users • ready to re-engage

arc • Powered by MoonX Infrastructure
